## ***Some Mediums of Divination***

**Divination** is the attempt to "foretell or explore the future", to shape our lives according to what is coming. The one who tries it is usually called a Fortune Teller.

There are dozens of ways to foretell the future, all of them, like Astrology and the Psychics, are schemes to get money from the deceived patrons. These are not "fun games", they are the work of Satan, don't even try them, you are going to be burned out of sanity.

**Astrology**, Horoscope, Zodiac, the Psychics: Astrology", beliefs that the arrangement of the stars, planets, and constellations at the time of one's birth sets a determined pattern in the life of a person... It is obviously "wrong", demonstrated a million times, when two persons are born on the same day in the same hospital and their lives are totally different!. *The "Zodiac" is a big lie of Satan... but consulted by more than 60 percent of the world population (daily basis).*

All the major newspapers carry a daily horoscope, 40 million Americans consult it, and there are three times as many Astrologers and Psychics as there are clergymen in America, with more than \$500 million of earnings per year only on the telephone consulting lines!.

In 1990, 186 distinguished scientists issued a no-nonsense statement savagely attacking Astrology: *"The time has come to challenge directly and forcefully the pretentious claims of astrological charlatans. It's simply a mistake to imagine that the forces exerted by stars and planets at the moment of birth can in any way shape the future".*

**Fortune teller** is anyone who tries to predict the future using any means, like psychic divination, telepathy, astrology, the zodiac, cards, crystal balls, palm reading, pendulum, numerology, dreams, etc.

Isaiah says about the Astrologers, *"they are like wisps of straw, the fire will burn them up. They will not save their lives from the power of the flame" (Is.47:13-14).*

**The zodiac** is from the Greek "zoe" (animal, life) and "diskos" (wheel), means "the wheel of life", or "the parade of animals". There are 12 "signs", one for each month, without any scientific basis, not even any common sense, but some Astrologers set up, also arbitrarily, 8, 14, or 24... Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, and Pisces... each "sign" has its "color", and millions know their "sign" and "color"... you can not be a Christian and wear a "sign" round your neck, or use a ring or pendant with the color of your sign... it is not from God, it is like wearing a sign of a politician or a movie artist to honor them; with the "Zodiac sign" you are honoring Satan.

**The Horoscope** is from the Greek, means "scope of the hour". It is determined with the geographical spot at birth and the date and hour of delivery, to council the future, weather or not conditions are deemed favorable to pursuit a business transaction, a career, an airplane trip, marriage and everything.

In America, 30,000 people pay \$20 to receive monthly computerized horoscopes. If you ask the horoscope from 20 different horoscope experts, you are going to get 20 different readings, the only constancy is the "ambiguity" designed to apply to almost any personality. And it is anti-scientific, based in the old doctrine that the earth is the center of the universe, and the sun rotates around the earth. Why so many people wastes time and money in this lies of Satan?: It works, they may say... well, it does not work!: In the statistics, the Astrologers are right 20% of the times, and wrong 80% of the times, so, better do the contrary of what the Astrologer predicts, you have more chances!.

.In 1963, several horoscopes of President Kennedy were made: Some said he would be reelected; others, he was going to get sick; others, he would die after reelection... they all were wrong!, he was killed before reelection. Jeanne Dixon declared that Jackie Kennedy would not remarry... apparently, the zodiac of Onassis said otherwise. Carroll Righter, whose syndicated column is read by millions, predicted that Spain's Franco would remain healthy (he died 6 months later!), and that J. Edgar Hoover would improve his health (he died 5 months later!).

And the main problem is not the stupidity of it, but that it is a work of Satan, some look at the horoscope because it is fun! it is not fun to play with Satan, you are going to end up in horrible situation. If Astrology were true, all men would be "robots" programmed by the stars and planets, but Astrology is false, and men are "free".

**Jeanne Dixon** is famous in the USA, but her prophecies have failed 93% of the times!, you better believe the contrary of what she predicts!: She predicted the Third World War by 1954. The War in Vietnam would end in 1966, it ended in 1975. On October 19, 1968, she predicted that Jackie Kennedy would not marry; she married the next day with Onassis. Fidel Castro would be expelled from Cuba in 1970. Russia would be the first nation to place a man on the Moon...

Satan is a liar, the father of all lies, and the father of the Horoscope. Christians has nothing to do with these divinations.

**Tarot cards** means "tablets of destiny". A pack has 78 cards, 22 of them with "major mysteries", corresponding to the 22 letters of Hebrew, inscribed with symbols that vary from pack to pack. All packs contain four major suits called wands, cups, pentacles, and swords. Court cards include the king, queen, knight, and page, symbolizing spirit, soul, vitality and body. One card has a "skeleton", symbolizing death... but you can get the skeleton and live 50 more years!... it is a stupidity of the devil.

**Contumacy** It is like Tarot but using the 52 regular playing cards, or only 32, discarding the 2s, 3s, 4s, 5s, and 6s... like Tarot, it is a fake of the devil.

**Crystal ball** is used by fortune tellers, clairvoyants, and diviners in the technique known as "skrying". Gazing into the glass the diviner enters into a trance-like state claiming to see present and future events (crystalomancy). It is a trick of the devil, don't get into it or a lie!

**Mirrors** are used in Rosicrucianism: The initiate has to stare in a mirror, and trace a 5 inch cross on it while repeating "Hail, Rosi Cross", until his imagination or the devil gives him a foolish hallucination or a prediction invented by the demons.

**Water** is used on a glass or in the river to do tricky fortune teller of the devil!.

**Palmistry** or palm reading" is based in apparent scientific data, the lines and mounts on the palm; but as divination, to read the future, it is also a fake or a lie of the devil, in spite of being probably the oldest and most sophisticated method of divination. This "**figure**" ascribes a sign of the zodiac to each phalange of the fingers. And besides the lines and mounts of the palm, the shape of the nails are also used, and even the fingerprints, if you are willing to pay for it!

**Phrenology** is like palm reading, but using the mounts or shape of the head.

**The rod** is usually a forked twig taken from a willow tree; fish bone and metals are also used.

**The pendulum** is a metal disk suspended by a thread. These are objects used by a diviner for detecting the so called "earth rays". The "earth rays", have their basis in the earth's magnetic field... but it is not so though the rod and pendulum respond to this mysterious force, attempts to locate its point of origin have met

with failure. The lack of understanding of this phenomenon has lent credence to superstitions prominent in occult practices.

**Dice** and **Dominoes** are the simplest methods, with the same false results as the most sophisticated ones. They are done giving arbitrary meaning to each "number": "1": Unity, "2": Marriage, "3": "Trinity"... or "1" the sun, "2" the moon, going on with the horoscope.

**I Ching** or the "Book of Chances", predates recorded history. The diviner throws 50 yarrow sticks. The hexagram formed from six lines in the sticks is read and interpreted in the "Book of Chances" to read the present and the future. They believe the spirits are communicating with them through the medium of chance, as expressed in the fall of the sticks, coins, or wands... it is a foolish sophisticated trick of Satan!.

**Snail Shells** is the most important divination procedure in Santeria: The priests through 18 Shells, some of them fall on their base and others on their side, and the result is read in the "Table of Ifa". of fate.

**The coconuts** Those who are not "saints" can only use "4 pieces of coconut": They through them, and they fall with the white down or the white up, and the results are read in the Table. Snail Shells and Coconuts are used in "Santeria" to read the present and the future. It is the same idea of the "I Ching", only here with Shells or Coconuts... a foolish trick of the devil!.

The "**Tables of Fate**", and the "**Wheel of Fortune** are based in the same idea of the "I Ching", only here using "numbers" or "a wheel of fortune".

### **Telepathy, Clairvoyance, Psychometry:**

**Mental Telepathy** is the communication from one mind to another without verbal exchange or other physical and empirical modes. It is actually a branch of parapsychology.

**Clairvoyance** is used to describe the psychic ability to see and describe future events. Edgar Cayse was a noted clairvoyant.

**Psychometry** is the ability to foretell a person's future by possessing an object belonging to that person... it is like the diviner slave-girl of Acts 16, to whom Paul cast out the devil in the name of Jesus Christ.

**Dreams** are normal psychological states, used by God in the Old Testament to reveal His plan and purpose. Dreams interpretation outside the Bible has been abuse by the satanic advocates. Normal Psychology makes use of them. It is

used also by Psychics, posing as chip Psychologists, without any knowledge of Psychology, as a scheme to make money, and guided by the lies of the devil.

**Numerology** assigns arbitrary specific values and meanings to numbers. Pythagoras influenced Kabalistic Cornelius Agrippa who drew up a numbering system:

- "1": Origin;
- "2": Marriage;
- "3": Trinity, wisdom;
- "4": Permanence;
- "5": Justice;
- "6": Creation;
- "7": Life;
- "8": Fullness.

**Tasseography** which is reading of the tea or coffee cup deposits in different imaginary shapes.
