## NEGATIVE VOLITION & MISERIES IN THE WORLD

**Bad decisions** limit future options. Believers and unbelievers do stupid things that divorce them from reality and blame others for the effects of their negative volition.

God is rational and He reveals Himself to the teachable, humble, willing to obey and with positive volition believers. Under arrogance complex, the negative volition people ignore God through preoccupation with self (old sinful nature). Under hatred complex, the negative volition people attack God, His plan of grace, and Bible doctrine.

An unbeliever who adheres to the divine establishment but then reacts with negative volition will begin to oppose the very truth they formerly believed. That is why, people who rejected the Gospel of Christ also rejected the correct principles of divine establishments- their last spiritual state is worse than the former volition [2 Peter 2:20].

Each rejection of truth by believer or unbeliever intensifies negative volition until the individual has locked himself into extreme antagonism toward God [Exodus 9:34-35]. Each rejection of truth from negative volition adds miseries that affect the lives of the individual concerned and the life of the people surrounding him.

Every individual manufactures self-made miseries through negative volition expresses by bad decisions that are contrary to the will, plan and purpose of God. Human negative volition is the cause of human miseries and tragedies. We create our own miseries and problems that divert us away from God.

When by your negative volition, you embrace satanic ideas or viewpoint, YOU BECOME YOUR OWN ENEMY. You accept demonic doctrines because your volition operates without truth of the Bible (Bible doctrine)- your soul is empty of God's Word. This condition is called "vacuum in the soul" and will results to hardening of the soul.<sup>1</sup>

When negative volition succeeds in creating vacuum in the soul, the rejection of God's Word becomes automatic and morally accepted for the person involved. When you reject Bible doctrine, you open yourself to receive satanic doctrine willfully and progressively. Satanic doctrine is the destructive substitute for doctrine.

When human negative volition presents any opportunity, Satan seizes the initiative for evil viewpoint (human and satanic doctrine) to infiltrate the soul until he can no longer make good decisions. Very severe darkness from spiritual blindness will black out his soul until he develops hardening of the heart [2 Corinthians 4:3-4, Exodus 7:22, 9:34].

Negative volition can be a subtle detour from the truth of the Bible – a major distraction to spiritual growth and maturity. Because, unknowingly or deliberately, you fall victim to

satanic influence by your own volition, you choose to submit to the spirit working among the children of disobedience (those with negative volition) Eph 2:2)

Through our active or passive consent, you create an opening for demonic doctrines to enter your soul. Bible doctrine is objective reality –not just subjective. Arrogance distorts all truth. If a person indulges in arrogance, he loses all objectivity and distorts God's Word. God is logical not illogical therefore, knowledge of the truth (Bible doctrine) is the only environment of genuine thought.
