## **THE POSITIVE VOLITION AND HAPPINESS OF CHRIST**

God is a God of order, not of confusion or disorganization, not legalism but orderliness. Since He is God of order, He provided divine protocol, which establishes the correct procedure to use under the plan and system of God. The imperfect believers must learn how to use the perfect protocol of God. No one can break the protocol of God without breaking himself. No one can counterfeit the protocol of God.

Every believer must learn how to obey the system God has established. The protocol is something you cannot counterfeit –since the divine protocol cannot accept anything less than His very own perfection.

The Lord Jesus Christ is the first and the only Man who was indwelt and filled with the Holy Spirit from the time He was born until the time He was ascended to heaven. He is the only Person who live and the last one to live completely by the divine protocol of God. He followed the divine protocol completely and accurately.

Christ was tested in every angels and details of His humanity. He prove the power of God and His positive volition are indeed very essentials to spiritual advancement. Christ was tested in every angles and details but was victorious even without using His Deity to influence His human needs.

The humanity of Christ did not encounter any self-induced misery or self-made suffering because He did not live outside the divine plan of God – not even for one second. Temptation that leads to sin is possible only outside the will, plan and purpose of God. [James 1:12-15], whenever the believer welcome the dictatorship of the old sinful nature and therefore, the Holy Spirit is not in control of the soul of the believer, but the old sinful nature is.

Jesus Christ used His free will-volition to follow the Protocol plan of God.

Free volition causes deserved sufferings under the law of volitional responsibility, but the existence of free will strips away every man made excuses for self-made misery. The believer's own negative volition is the only hindrance to spiritual growth and advancement under the Protocol plan of God.

There was no time in the life of Jesus Christ in Hypostatic Union when He has negative volition or when He was in the state of carnality. He was 100% spiritual all throughout His life as perfect Man.

The Lord Jesus Christ encountered every category of undeserved suffering and every category of testing possible to any human being. He faced every trial we encounter in our daily life [Hebrews 4:16, 1 Corinthians 10:13]. He did not rebuke His suffering or testing and driving it away, but overcome them all through the resources and power of the Holy Spirit.

The happiness of Christ in His humanity was the perfect happiness of God, not the happiness of man based on pleasures, leisure and treasures of the cosmic system. There was never a time when Christ became unhappy or lonely because of poverty, crisis, disaster, persecution, insults, and abuses from every direction.

Spiritual happiness is a state of the soul and not just emotional outburst. Genuine happiness is not external manifestation based on material aspects or factors. Materialism cannot provide true happiness- it has nothing to do with abundance or with the absence of materials. The twin of materialism is extreme unhappiness caused by the things of the world.

The humanity of Christ was perfectly happy in poverty, persecution, rejection, mockery and insults, crisis and disaster, denial and injustice, betrayal and pains of all kinds.
