

The Fallacy of Spiritual Growth

07

Fallacy 7: Spiritual maturity is compliance to certain norms & standards prescribed by the church or leaders.

Truth: Some churches invented their own standards of growth and maturity deceiving their people to think that they have reach spiritual maturity by attaining them resulting to rejection of Bible doctrine. Spiritual maturity is the capacity for life, love, service and happiness not the ability to follow legalistic rules.

Argument: There is only one Bible doctrine but too many church doctrines that enslaves, isolates and tortures the Christians with guilt and condemnation.
