

# *The Fallacy of Spiritual Growth*

11

Fallacy 11: Spiritual growth is participation and involvement in church programs and ministries.

Truth: We are commanded to study diligently (spoudzo), with concentration and to make it as a way of life. we are to make the study of doctrine a top priority. We are to study the Word with concentration. We are to understand what we have learned. We must apply what we have learned in order to be approved (2 Tim: 2:15)

Argument: Anything that is spiritual is from God, it cannot be imitated, cannot be duplicated, or produced by anyone without being saved, resident of divine plan of God and control by the Holy Spirit.
